“ And then you can take as much candy as you d**n well please!”

I'm Annabelle and I like to swim, hang out with friends, and talk. I like it when peter talks in weird accents. My favorite artists are Coldplay, Linkin Park, Paramore, and

Timbaland. When I grow up (if I grow up) I want to be in the Summer Olympics for swimming.

PHILLIPS

I am in the seventh grade and I am 13 years old. Most of my free time, I spend dancing at the dance centre and doing homework ☹️

Once I finish my college education I hope to become an interior/fashion/graphic designer or a dancer/singer/actor, all of these professions combined would be my ideal job.
(intgrafasancesintor)

I have been at this school for two years now, in the elementary and adolescent

classrooms and also shared many fond memories with friends in the preschool program for two years. I will continue in the adolescent program for eight grade next year in hopes of having a year filled with as much learning and fun as the one that came before it.

I have tried to know absolutely nothing about a great many things, and I have succeeded fairly well.

– Robert Benchley

I like long walks, especially when they are taken by people who annoy me.

- Fred Allen

- My inner child is not wounded.

Bonnie

CREADICK

This is my second year at Montessori. I enjoy reading, listening to my iPod, playing the guitar, and I also play the violin but I do not enjoy it. This year in the Adolescent classroom has been very interesting, and fun. It has been really nice meeting all the people no matter how crazy they are, because they make school a whole lot less boring.

When it comes to the actual school part of school, my favorite subject

is probably reading/writing, that is assuming that lunch and recess are not subjects. I have always liked to read and so writing goes along with that.

Someday I would like to be some sort of designer of something. I keep changing my mind and so I can't really say one thing that I have decided on. I am interested in web design or graphic design so those could be a possibility. I like to be artistic. But who, knows, I

may end up working at McDonald's.

COLEMAN

My name is Corey (with an “ey”) Coleman. I have been at this school for 10 years. My hobbies include: Horse-back riding, singing, acting, piano, hip-hop, reading, and hanging out with my family and friends. Some of my favorite quotes are:

“There’s more to life than just to live”

“An empty room can be so loud”

“Make new friends but keep the old”

I have made friends for life here at MCS. Thanks to everyone who went here with me. My time here so far was very.....interesting and fun!

"Give a man a fish and he'll eat for a day. Teach a man to fish and he'll be frustrated for a lifetime."

What I plan to do: I plan to be a fun history teacher when I grow up, so if you guys see me as a teacher of the year for the whole country well you'll have the pleasure of saying you went to school with me.

How I would like to be remembered: I want to be remembered as a fish,

bass, guitar, soccer, playing human being who, even with a hampering disease still manages to get through life without ticking people off (although I can't say it hasn't happened a few times.)

Most likely to: get married, have kids, own a hippy van.

HI!
I'm Hannah and
I like to hang
out with
friends, play
basketball and
tennis, and
talk..... Yippy!

"Your friend is the one who knows all about you, and still likes you..."

My name is Joey and my hobbies are playing sports hanging out with my friends and talking with my friends on the computer. I like a lot of different bands and artist including: Linkin park, Britney Spears, Elvis Presley, Paramore, My Chemical Romance, Kanye West, and Fall Out Boy. I think that one of the things I loved about this year was making a lot of good new friends. One of the funniest moments from this year was probably when learning about

Galileo Peter using accents making peoples names sounding -- interesting... I do not know what I want to be when I grow up and I am not in much of a rush. I just want to

remembered by what people think about me, they can think what they want and that's how I'll be remembered.

Okay. I don't do all the "I've been going here for blah blah blah..." but I am currently in seventh grade, hoping to move to the eighth grade next year. I started going to Montessori Community School when I was three years and two days old; when you're that old EVERY day counts. You'll never hear "I am three" from a three year old unless it's their birthday. It always has to be "I am three... AND A QUARTER...=D!"

I have really had some great times and good experiences at this school. My favorite year has to be fifth grade, because I really liked my teachers and there were no arguments with my friends. Everything was so relaxing and I never did any work! Also, I

had about ten AWESOME friends, and others that were a little *less* awesome ;-). One of the best things I remember from that year is "Triple J". Triple J was a "group, we weren't allowed to have clubs (pointless), that Joe, Joey and I made. We had all sorts of ridiculous qualifications to be "in". Like you had to guess a jester password that was like a minute long, have a "Baby G" watch (Casio), Name has to start with J-O-, and all these other weird rules. We just never wanted anyone else to join =]! Another thing about that year was "The Script". It was indeed a script. It was very funny and weird in weird ways if you follow. And everyone in it had a lot of fun doing it, and not work!

You probably don't find that extremely exciting but there were a lot of other "firsts" that were more private, and like everyone always says, "You had to be there".

Some things I like to do now include: Playing soccer, hanging out with friends, playing guitar, watching TV, talking to my friends, hanging out with my family, running, and annoying my sister.

Kathryn

TAYLOR

My hobbies include playing soccer and piano, reading, listening to music/radio, and hanging out with friends. I wouldn't consider homework a hobby, but I do it about as often as any of those things! ;)

I like to listen to pretty much any music that is playing; I just don't really like to make the decision myself about what to listen to. That's why I like to listen to the radio or put my iPod on Shuffle.

I want to be a writer/journalist when I grow up, but

also have something to do with music (piano) and some kind of art like drawing or painting.

You know how everyone has at least one weird friend? Well I hope that I am one of your weird friends. I like to play sports, guitar, and hang out with my friends. This year was a lot of fun, because all of you were there. You guys not only made this year fun, but you made it funny too! I will miss all of you next year, and I hope that you have fun without me!

"Before you can find yourself, you must loose yourself by helping others..."

7th grade has been interesting, saying it has been "fun" just seems so flat and boring, but it's the only word that fits. New friends, old friends, they are all great, new teachers, they are great too. Hobbies; soccer, a lot of soccer, but I also like running, surfing, tennis, talking on the computer, and hanging out with friends. Favorite quotes, well I have two: "Friendship is like peeing on yourself, everyone can see it but only you can feel the warmth it brings" and "Before you can find yourself you must loose yourself in helping others". I haven't really decided what I want to be when I grow up, I think it would be interesting

to study anatomy, maybe be a surgeon (but as most of you know I have a fear of needles, although I am starting to get over it, kind of) but I also think it would be interesting to do something with mathematics, maybe architecture or engineering. I have a while to think about it so not to worry. How would it like to be remembered...uh, it would make me happy if people remembered me as a nice person, that would be good enough, 🍷 But enough about me. Our class...just can't seem to sum that up. If someone in our class is reading this or showing it to your kids and it is twenty some odd years later, you should have some memories and if not, well that is just sad. This year has been great; one of the best and it's not over! This is both good and bad. Any last words

before I plunge into the dark pit of being an eighth year, (no offense 8th years) yes, I hope I don't have to plunge into the pit alone.
